Office note 1

O. H. File 21 of 1896-97.

Precis of correspondence dealing with letter, No 913, dated 8th Dec. 1896, from the Supdt. Archaeological Survey, in-re the petition of Srinivasa Jer, Archaka & Emoluments, Ramachandra Swami Temple on the Sivaganga Estate, complaining against the imposition of Assessment on the lands found in the lands attached to the said Temple

x a century & a half ago

The ancestor of the petr, having built & consecrated a temple to Ramachandra Swami, applied to the Samasthanam for the grant for enjoyment by the temple free of rent, of certain lands he had purchased from ryots, & formed

to pay a consideration for the grant accordingly, in receipt of certain sums as consideration for the same, the inquiries noted Lands were allowed to be enjoyed next year

In the year 1875 the same authorities confirmed the inquiries noted Lands with reservation of all claims against them, leaving the extent of Patta to be ascertained by the Survey Dept

The Survey Dept found Kunigan village to consist of area 67-10; bearing a Survey assessment of Rs 182-8-0 + allowing as per Inam settlement, Rs 88-9-0, adding 10 p.c. Excess, Rs 8-12-8, & deducting inadvertently accepted as 37-6-8 as Inam, the balance, 34 acres and 2 guntas, was objected

5. Mr. Kurbail engaged lawyers, etc, after assigning comprising as ~~by the~~ Inam land equivalent to Rs 125-0-0 of assessment including excess of 100 c, the balance of excess 25-2 was treated assessable and assessed at Rs 7½ Thus a sum of Rs 189 was directed to be recovered from the temple as assessment ~~imposed~~ on the excess in the Inam Villages
6. Claim against the settlement, section 10 2 5 3/2, 3-7 "Sec 32", was presented by present petitioner in which it was contended that the whole of the alleged lies land was within the ~~Inam~~ boundaries demarcated by Permanent survey stones & has been in the exclusive enjoyment of the temple for more than 50 years & that the

mpetition of Rabbi ...

The Manager of Court ... x No 102 Vol 2 Folio 2 ... 1928 ...
in reporting on the above petition, suggested that the Imam Qadis should be asked to report if there were good grounds for the petitioners contentions & stated that, barring final disposal of the petition, he had directed the Amildar to restore the collection of the Khulsa

The Imam Qadi was accordingly requested to report under what circumstances the claim of the temple & the entire Imam was set aside, while the ancient boundary marks defining the limits of Imam, were still in existence & the terms of the Imam Agreement showed

x No 3322/142 & 1st Imam

that the whole extent of land comprised within the boundaries inclusive of such limited additions as may be allowed to the Inhabitants.

9. The Survey Rules reported that no encroachments have been made under the rules sanctioned by the Privy Council order of 30th Sept. 1878, which allows no exception in the case of Mahomedans, where that can be decided to be the only available land and submitted from that of the Lands in question adjoining but unoccupied Lands, such encroachment might have taken place to any extent without any hindrance by limitation the Govt

16 On this petition, a summons* was sent to the Inspector Gujjili with a request to submit his report at an early date

× No 1644 D. 20-3-96

17 The Inspector, Gujjili, who referred the petition to the Shirastedar by Court, submitted the report of the Dy Coun

× No 1628 D 20 July 96

18 The Dy Coun, in his report*, briefly discusses the salient points in this case as follows.

× No 1535/96 D 30 June 96

"In the original land the extent of the first Taluk or Tahsil in the Inspectorate village is stated to be 62½ cawdies of seed, which is equivalent to a garden of 200 trees

Section Law, having
Ninth of 1 3/8 Pawnee.
For Example, the area
is stated to be not
5/8 Section the Code
including Pawnee &
Pawnee with a Ninth of
1/4 Pawnee. There is
some doubt as to the
Significance of Pawnee
Cigarette. Some say it
means Lent lying longer
or unattended & others
that it refers to Cigarette
Drawn in the account
in excess of the actual
Cigarette they have the
manual shows that the
Settler was entitled
to bring into cultivation
additional land not
exceeding the Pawnee
Cigarette without being
called upon to pay "
fresh Landpayment
"The Pawnee also

Above land is fixed along the hillsides and embankments, i.e. the high land marks courses, which belong to the owner land owned in the past it may be parted from this, that the owned, not only owned the land under actual cultivation than but also uncultivated land owned on their order."

"According to the survey the cultivable area in Kandal is as follows:-

| | | |
|---|---|---|
| Dry, wet & garden | 5 acres | 28 guntas |
| Kan | 140 | 4 |
| Gomal | 140 | 5 |
| Dry & village site | 1 | 18 |

The same details for Kanigaon are as follows:-

| | | |
|---|---|---|
| Dry, wet & garden | 4 acres | 10 guntas |
| Sophisticated | 12128 | 38 acres 26 |
| Gomal | 12128 | 38 2 |

"Taking Kandal alone, the survey dept calculated the extent of wet & garden

according to the joint Survey as
27 acres 1 gunta & allowing
the usual excess of 10 p.c
Confirmed in Inam 24 acres
2 ½ guntas & Cropat the
remaining 2 acres & 32 guntas
under Inam title the Survey
Dept has accordingly
calculated at the rate
of 23/4 guntas for each
Kuli Candy, while from
the Village record it
will be seen that the
average extent in
acres of each candy of
old Cyanam is 38 guntas
Limit the petitioners
Lands do not exceed
33 guntas per candy of
old Cyanam allowing
for the varkat a Cyanam
included in his holding.

"In the same way out
of the total cultivable
area of 47 acres 10 guntas
in Survey No 1 the Survey
Dept confirms 33 acres
9 guntas & treated
as Varkat 16 acres
& 1 gunta This fields

an average of 233/5 gunta
per county, while according
to the municipal calculation
the average of the village
is between 33 & 33 gunta
as Nasika is entitled to
included into the last group,
an average of 37 guntas

"I have no information
as to how the survey done
convert the old khandy
into guntas, but it will
be seen from the above
that apart from other
considerations & assuming
the data only the average
excess found in the
respective villages he is
not liable to pay any
halsath"

X "The next ground of his
is that he is entitled to
all the lands within
the stone boundaries fixed
according to the grant
& that he is not be
taxed for the excess

"

It will be seen from the plans filed with the records that the two boundary lines are nearly parallel and that even the Imam Assistant was of opinion that they were genuine boundaries. The Arbitrator has also examined all the witnesses as to their genuineness and to the long enjoyment by the late Sultan of the exceptions of the lands included within those boundaries. And seeing that no other parties hold lands in the neighbourhood of the lands in dispute I think the Sultan's argument has great force

"

The next question for consideration is whether the Sultan is entitled to the lands

some unattainable ends were actually intended to be assigned to the grantee. As regards no 126, it is reported that houses have been built thereon & that it now forms part of Negarnecci village - although evidently situated within the boundaries of the grant, the Jett & his ancestors have slept on their rights & allowed third parties to build houses on this portion, and as it is situated at the extreme corner of the Jett's lands, it may well be added on the village site of Negarnecci instead of being treated as access dry land, belonging to the Jetts.

"No 124 & 125 of the Negarnecci village which have been treated as

by the Survey Deptt on formal application, should for similar reasons be acted to the detri Imam & enjoiment of him."

17 A further reference was made to the Survey Deptt forwarding the letter of the Dy Comr for any remarks which he may wish to make in the observations & suggestions of the Dy Comr

18 The Survey Deptt in forwarding his opinion, states that although this subject has been dealt with in Demi Nos. No 2800-10-7 July 1882 & 40

the Survey Deptt advocated the Imam in accordance with the rules. yet there is something in favour

already been declared by Govt to be inadmissible. Colonel Grant DA

× "In the Exam Deptt no claim, under the head of Exam paying a much less was admitted. We by Govt advocate the claim of the Inamdar very strongly and it rests with Govt to give such fixed orders as it may deem fit. The circumstances of the claim are somewhat peculiar & Govt may perhaps be inclined to allow some instead of none of the cases on the extent admitted by the Exam Deptt".

16 The question for decision is whether, under the circumstances set forth in the Dy Com's letter and hastily summarized by the Bombay Govt, the Inamdar is entitled to any allowance for the value or loss of the excess referred to above, or Exam.

In the D'Comm'r's report- no 765 δ 18/11/97
it appears that the reversion ordered
in 1882 was actually carried out
only in 1894 ; a delay of 12 years
to be explained probably because this
was an isolated case forgotten amid
other work in the Settlement Supt's office)

As the levy of Khalsat was ~~ordered~~ refused
to have been postponed by the D'Comm'r in para
3 of his letter δ 24/2/82 ( serial no 2 in
the file) and as the Govt passed
orders directing the reversion of Khalsa
in this letter, the D'Comm'r presumes
that Govt sanctioned the postponement.

The exact land is in the enjoyment
of the pett and has been
fully assessed.

The re-opening of the question in
1894 was coincident with the
carrying out of the orders of 1882
and made - I venture to think -
in ignorance of the ~~original~~
numerous orders on the subject
Serial No 7 shows that the pett's
1894 was received in camp and

1) That in the conversion of the old Sirpur into acres, the Survey Dept has adopted a very low equivalent of 23 1/4 Guntas to each Mapi candy. instead of the true average equivalent of 38 guntas - according to the annual report

2) That the lands claimed by Pet^r as Inam are all situated within the Stone-boundaries fixed according to the Firmaud. Going into details, the Dy Comm^r would confirm all the lands [illegible] to Pet^r with

On the two points referred to, viz the rate of conversion of the Governor's boundary, this letter expresses his agreement with the D/G comm^r and would allow pet^r's claim ~~as far as~~ subject to an inquiry as to his part in the work. Petition No 2579 ½ of 7.12.80
by Venkatacarana Jois, Archik
of the Ramachandra Temple
at Nittady, Kavaledurg Taluk
Shimoga Dt. —

Fact as stated in Petn.
Preliminary inquiry not under-
taken —

This complaint is regarding the
resumption of the excess land
found in the survey measure-
ment of the Inam attached to
Ramachandra devaru Temple
of Kamagodi Village.

As per Inam Settlement —
Devaddaya Marg — No 129.

As regards the first charge it was
decided ~~[illegible]~~ in the Inam Settlement
the boundaries were to be settled by
the Survey Dept. The 2nd is a
Minor inam.

In the Survey the 1st charge was
found to consist of acres 47. 10.
bearing a Survey assessment of 94-8-
As per Inam Settl. Rs 88. 9. "
add 10 p.c. excess 8. 13. 8
97. 6. 8
or eliminating Paise 97. 8.
13 acres 8 G.
Remainder - 34 acres 2 guntas
assessed at 97. ... has been resumed
as Sircar.

In the second case after assigning to the Inamdar land equivalent to Rs 125-8-0 of appellt including excess of 10 per cent the balance area 23-2 assessed at 72 Rs has been remitted.

The Petitioner contends that the Inam should be assigned in full all land found within the boundaries which are clearly defined being part of the Inam.

After stating the facts of the case (vide supra) suggests that the Inam Inquiry be asked to report if there are good grounds for the Petr contention.

The Govt has directed that the collection of the appeal referred to should be postponed till orders are obtained.
